

Bible Study 2019
Battle for the Biblical Family by George Scipioni

“My goal is to set out the biblical view of the family in a systematic way.”

Introduction

To reform America, our families must first be reformed. “God put us here to glorify and enjoy him forever. Jesus gives his people eternal life, which he defines as knowing the only true God, and Jesus Christ whom he sent. As we come to know the Father through the Son, the Holy Spirit produces his moral character in our lives. As they reflect this same glory, Christian families not only enjoy fellowship with God, they show God’s love and glory to a world yearning for true fellowship and joy.”

Chapter 1: God’s Basic Building Block

“God created a family. He did not start with a church, a government, a business, or a voluntary organization. He started with a ... husband and wife who were to rule over the creation and procreate. These godly offspring were to start new families and spread out to fill the earth.”

God’s *purpose* for the family.

God’s word *defines* the family.

“Individually and jointly they reflect God’s character.”

“The family is a reflection of the very reality and nature of God.”
